ORANGE COUNTY HYDRANT GROWERS ASSOCIATION U.S. DEPT. OF AGRICULTURE
MILWAUKEE, WISCONSIN
Nov. 16, 1933.

Dear Customer:

Could you use 500 or more Hybrid 121-741?

If so, has your failure to order them in fact caused
even the question of ready cash - can being that all of
us are connected with these days?

If that is the case, here is our answer.

Very frankly, we don't see how it is that we will cut
bulbs to New York wholesalers, and sell them at \$1.00
per thousand, when we sell them to you at \$1.25 to
\$1.25 per thousand.

Our price on Ameryllis is as follows:

- 2" bulbs - \$75.00 per thousand
- 2 1/2" " - 110.00 per thousand
- 3" " - 125.00 per thousand.

The above prices are f.o.b. Milwaukee, Florida.

If you will order out 500 or more bulbs, and accompany your
order with a remittance in the amount of 10%, and give us
a note for the balance, due in 30 days, we will make the
shipment.

We know our bulbs are good, because we have watched them
grow for years - we have sold them for years without a com-
plaint, and with some praise, and our prices are a price
on them which in some cases is just half of what you have
to pay elsewhere.

Might we hear from you?

Cordially yours,

ORANGE COUNTY HYDRANT GROWERS ASSOCIATION.

John Masok.
Manager

P.S. Of course we'll be glad to get a smaller order from you,
even as little as 25 bulbs, though they would be shipped C.O.D.
